
CD-i Welcome

Dear potential CD-i developer:

Thank you for your inquiry about becoming a CD-i developer. Enclosed you'll find information about the CD-i development community, answers to many frequently asked questions and details on the tools available to further your development process.

In addition to this letter, this packet contains information on:

- CD-i Frequently Asked Questions
Introductory technical document describing the technical concepts and features of CD-i
- CD-i Technical Summary
Basic technical specification of CD-i
- CD-i Development Environments
Description of suggested development and production environments on Mac, Sun or PC
- CD-i Publications
A listing of the technical notes, books, magazines and newsletters relevant to CD-i.
- CD-i Directory
CD-i related companies and institutions and a list of CD-i developers who want to be known publicly

We're interested in making sure that you can develop for CD-i quickly and efficiently. If you need further information or have questions about the various programs, please feel free to contact the developer services staff listed below.

Best wishes,

Charles Golvin
Vice President, Technology
